

Program/Degree	Cohort	Year	Key Assessment Finding Initiative	SLO/PLO	Alignment to Data and Student Learning	Outcome
University Parallel AA/AS	A	2023-2024	Increasing student learning in PLO #3 through the development of course material in Gateway courses.	PLO 3	The data show a notable decline in PLO 3 achievement, indicating gaps in students' foundational quantitative skills as they enter the program. Increasing student learning in Gateway courses through targeted course material directly addresses this outcome by strengthening early mathematical understanding, providing structured support at the entry level, and improving students' ability to apply quantitative reasoning across subsequent coursework.	In Progress- AY 23-24 PLO #3 57.88% met. This is a 5.38% increase from 2022, but still below the goal.
